

Appendix A: Teacher Notes/Tips for Success

1. If students are showing difficulty in either naming or drawing organic compounds, allow students to use Nelson text as needed (P. 121-136).
2. 21 cards of each card type('**Number of Carbons on Structure' Card and 'Number of Carbons'**) are available for class use. Photocopy more as needed . See Appendix B.
3. Explain to students that their card noting the number of carbons on structure does not include the carbons belonging to the functional group itself.
